

## Water Baths

- Digital 10/20 litre Laboratory water bath
- Temperature range: ambient to 100°C
- Powerful Circulation Pump assures Temp. Uniformity
- Digital PID temperature controller +/- 0.1 °C
- Corrosion-resistant stainless-steel chamber
- Includes hood

## Liquid Nitrogen Containers

- Narrow neck design and excellent thermal conductivity reduces evaporation loss of liquid nitrogen to extend storage times
- Available in 6 – 35 litre volumes
- Strong and lightweight aluminium construction
- Heavy duty lockable enclosure offers excellent security
- LN2 dispense pump available
- Roller bases available
